Professional Summary

Senior Full Stack Developer and Technical Lead with 8+ years of experience building and scaling enterprise-grade web applications. Strong expertise in Java, Spring Boot, Microservices, and Angular, with proven ability to design backend and frontend architectures, lead development teams, mentor engineers, and deliver high-impact production solutions.

Core Skills

Backend: Java, Spring Boot, REST APIs, Microservices, Hibernate, JMS
Frontend: Angular, TypeScript, PrimeNG, HTML, CSS, JavaScript, Bootstrap
Database: MySQL, MongoDB, MarkLogic
Tools & Platforms: Git, Maven, IntelliJ IDEA, VS Code, Postman

Experience

ITORIZON INDIA PVT LTD

Technical Lead
Senior Software Analyst
Software Analyst

Bengaluru, Karnataka
Apr 2024 – Present
Apr 2022 - Mar 2024
Dec 2020 - Mar 2022

1. **UCBOS**
   Tech Stack: Java, Spring Boot, MySQL, MarkLogic, Angular 15, PrimeNG, Flowable, Apache Camel, Apache ActiveMQ, Hazelcast
   Description: UCBOS is a universally compatible, metadata-driven No-Code platform enabling composable business logic, workflow automation, and data interpretation from multiple sources. The platform combines NoSQL, metadata modeling, and AI/ML-driven automation to build scalable enterprise solutions.
   Responsibilities & Impact:
   - Owned and delivered multiple critical modules while leading and mentoring a team of 8 developers.
   - Led migration from Angular 10 to Angular 15, achieving a ~70% reduction in build time and improving overall application performance.
   - Designed and built a Jasper Report Template Builder using FabricJS, enabling intuitive report customization and data visualization.
   - Engineered a scalable JavaScript automation engine capable of processing 100K+ records, with horizontal scalability.
   - Improved overall code quality through continuous code reviews, refactoring, and clean coding practices.

2. **SCO Web (Client: DP World)**
   Tech Stack: Java, Spring Boot, Oracle SQL, React, ActiveMQ, Redis
   Description: SCO Web is a Yard Management System (YMS) designed to manage container movements and operations efficiently within large yards.
   Responsibilities & Impact:
   - Designed and implemented an algorithm to determine optimal container placement based on varying container sizes.
   - Integrated Single Sign-On (SSO) with DP World's IMS (Indian Middle East Service) for seamless cross-application access.
   - Implemented multi-language localization (English, Hindi) to support diverse user bases.

3. **Custom Packing Tool (Client: Winzer)**
   Tech Stack: Java, Spring Boot, Angular
   Description: A custom packing solution enabling Oracle Fusion users to search products, update details, and print labels using network-connected printers.

Responsibilities & Impact:
- Built backend services integrating with Oracle Fusion APIs, enabling users to authenticate using existing Oracle Fusion credentials.
- Developed intuitive Angular UI supporting barcode-based product search and updates.
- Implemented network printer integration to allow direct printing from the application.
- Delivered an end-to-end solution used in daily operational workflows.

ENSATUS TECHNOLOGY INDIA PVT LTD
Full Stack Developer

Bengaluru, Karnataka
Nov 2018 - Nov 2020

1. **TrueCover**
Tech Stack: Java, Spring Boot, MySQL, Angular 8, Angular Material, ActiveMQ
Description: TrueCover is an insurance claims automation platform serving insurers, TPAs, brokers, employers, and hospitals. It supports policy enrollment, claims processing, real-time fraud analytics, OCR-based document processing, and seamless integrations across insurance ecosystems.
Responsibilities & Impact:
- Implemented JWT-based authentication and authorization, strengthening application security and access control.
- Improved report generation performance by ~80% through highly optimized SQL queries.
- Integrated email communication workflows for notifications, password resets, and system alerts.
- Built a customer-facing Angular application from scratch, following responsive and UX best practices.

QLEVERLABS TECHNOLOGIES
Junior Full Stack Developer

Bengaluru, Karnataka
Nov 2018 – Nov 2020

1. **EduQfix (Client: Qfix)**
Tech Stack: HTML, CSS, JavaScript, AngularJS, Thymeleaf, Java, Spring Boot, MySQL
Description: EduQfix is an education management platform providing institutes with a unified digital ecosystem for fee collection, workflows, stakeholder management, and service integrations.
Responsibilities & Impact:
- Implemented a secure payment gateway integration, adhering to industry compliance and best practices.
- Engineered a real-time notification system using Google Pub/Sub to deliver timely updates and improve user engagement.
- Contributed across frontend and backend modules in a fast-paced startup environment.

AWARDS & RECOGNITIONS

Role Model Award (2023) — ITOrizon Inc
ITOrizon Mars Lander Award (2021) — Innovation / Technology Focus

Feb 2024
Mar 2022

EDUCATION

Bachelor of Engineering – Computer Science & Engineering
GSKSJTI, Bengaluru

July 2017

Diploma – Computer Science & Engineering
Govt. Polytechnic, Immadihalli

July 2014
